COMPANY OVERVIEW

One Call Drywall Solutions Ltd. is a licensed drywall and interior finishing contractor headquartered in Surrey, British Columbia, proudly serving developers, general contractors, architects, and project managers across the Greater Vancouver area and throughout the Lower Mainland. With roots going back to 2014, the company has built a strong reputation for precision craftsmanship, reliable scheduling, and consistent project delivery — from targeted residential renovations to multi-unit residential and commercial new construction builds.

Operating under the leadership of Madhav (Mike) Aggarwal, One Call Drywall Solutions delivers comprehensive expertise across drywall installation and taping, steel stud framing, insulation systems, interior painting, T-bar ceilings, and wall plastering — all under one accountable subcontract. The team's commitment to quality, site cleanliness, and clear communication has made it a trusted trade partner in the competitive Lower Mainland construction market.

Our portfolio spans the full spectrum of construction types: single-family homes, townhouse complexes, mid-rise apartments, high-rise towers, commercial tenant improvements, and occupied renovation environments. We are WorkSafeBC compliant and carry comprehensive insurance, offering general contractors the confidence of working with a professional, fully licensed subcontractor.

OWNERSHIP & MANAGEMENT

Company Leadership

Position	Founder & Owner
Name	Madhav (Mike) Aggarwal
Role & Responsibilities	Strategic Direction, Operations Management, Quality Oversight, Client Relations

About Our Leadership

Mike Aggarwal is the founder and driving force behind One Call Drywall Solutions Ltd. With years of hands-on experience in the BC construction and drywall industry, Mike's passion for craftsmanship and unwavering commitment to client satisfaction are the cornerstones of the company's culture. He maintains direct involvement in project quality oversight, crew management, and client communication — ensuring that every project, regardless of scope, is delivered to the highest standard.

Under Mike's leadership, One Call Drywall Solutions has grown from a startup to a respected Lower Mainland trade partner, recognized by both Google and HomeStars for exceptional customer service and quality workmanship.

Management Philosophy

- **Operational Excellence:** Project supervisors ensure daily operations run efficiently, with quality maintained at every stage.
- **Client-First Communication:** Open, proactive communication with GCs and owners' representatives at every project milestone.
- **Quality Control:** Rigorous inspection protocols at critical finishing stages to guarantee flawless results.
- **Workforce Investment:** Ongoing training and development, including relocation packages to attract skilled tradespeople provincially.
- **Safety-First Culture:** WorkSafeBC compliance and site-specific safety protocols embedded in daily operations.

04

MISSION & VISION

OUR MISSION To elevate interior spaces by delivering impeccable craftsmanship and innovative finishing solutions — creating environments that reflect our clients' standards while prioritizing sustainability, functionality, and aesthetic precision. We exceed expectations on every project, regardless of scope.	OUR VISION To be recognized as the premier interior framing and finishing contractor across British Columbia — setting new benchmarks in technical quality, crew reliability, and customer service that redefine what general contractors and developers can expect from their subcontractor partners.
---	--

Core Values

Excellence	Unwavering commitment to superior workmanship on every project, regardless of scale.
Integrity	Transparent, honest practices from initial quote to project handover.
Reliability	Consistent on-time delivery and clear scheduling communication with GC partners.
Safety	WorkSafeBC compliance and proactive site safety embedded in every crew operation.
Customer Focus	Client satisfaction is the primary measure of success on every engagement.
Sustainability	Energy-efficient insulation solutions and responsible construction practices.
Team Pride	Inclusive work environment; relocation packages for skilled tradespeople to ensure scalable capacity.

05

CORE SERVICES & CAPABILITIES

One Call Drywall Solutions Ltd. provides complete interior finishing solutions — eliminating the need for multiple subcontractors and streamlining your project timeline.

SERVICE	SCOPE OF WORK
Drywall Installation & Repair	Full boarding, taping, mudding, and finishing for walls and ceilings. All levels (0–5). Residential patches to full-building new construction. Level 5 finish available.
Insulation Installation	Batt (fiberglass, mineral wool, Roxul), rigid board, blow-in, Monoglass, and firestopping insulation. Thermal performance, acoustic separation, and energy code compliance.
Steel Stud Framing	Interior metal stud and track framing for partitions, soffits, shaft walls, bulkheads, and complex architectural elements — built to engineer-specified tolerances.
Interior Painting	Precision interior coatings using premium paints including Benjamin Moore. Interior/exterior painting, priming, texturing, and specialty finishes.
T-Bar Ceiling Systems	Suspended grid ceiling installation integrating lighting, HVAC, and acoustic tile requirements for commercial and institutional environments.
Wall Plastering & Texturing	Skim coat, knockdown, and custom plaster textures. Transforming surfaces into refined architectural features with lasting structural durability.

DRYWALL INSTALLATION & REPAIR

- Full boarding, taping, mudding, and finishing for walls and ceilings.
- All levels (0–5).
- Residential patches to full-building new construction.
- Level 5 finish available.

INSULATION INSTALLATION

- Batt (fiberglass, mineral wool, Roxul), rigid board, blow-in, Monoglass, and firestopping insulation.
- Thermal performance, acoustic separation, and energy code compliance.

STEEL STUD FRAMING

- Interior metal stud and track framing for partitions, soffits, shaft walls, bulkheads, and complex architectural elements.
- Built to engineer-specified tolerances.

INTERIOR PAINTING

- Precision interior coatings using premium paints including Benjamin Moore.
- Interior/exterior painting, priming, texturing, and specialty finishes.

T-BAR CEILING SYSTEMS

- Suspended grid ceiling installation integrating lighting, HVAC, and acoustic tile requirements.
- For commercial and institutional environments.

WALL PLASTERING & TEXTURING

- Skim coat, knockdown, and custom plaster textures.
- Transforming surfaces into refined architectural features with lasting structural durability.

5.1 Drywall Contracting Services — Core Competency

Our drywall crews follow a disciplined multi-coat system to deliver consistent, inspectable finishes across all project types:

- Precision hanging using drywall screws (zero popping). All joints backed with fibreglass window insulation.
- **Level 4 Mudding** — Three-coat system: taping coat, first fill, second fill. Sanded smooth between coats.
- **Level 5 Finishing** — Skim-coated surfaces suitable for high-sheen paints, Venetian plaster, and critical inspection environments.
- HEPA sanding and dust removal prior to primer application.

Additional Drywall Capabilities

- Drywall board types: Standard, Fire-Rated, Moisture-Resistant, Impact-Resistant
- All finishing levels (Level 0 – Level 5)
- Texture applications: Smooth, Orange Peel, Knock-Down, Stipple, Skip Trowel
- Drywall repairs and patching
- Specialty installations: Curved walls, bulkheads, soffits, coffered ceilings, tray ceilings
- Fire-rated assemblies (UL-listed / BC Building Code compliant)
- Acoustic assemblies (STC-rated, resilient channel, double-layer board)

5.2 Insulation Contracting Services

Proper insulation is essential for energy efficiency, thermal comfort, and BC Building Code compliance. One Call Drywall Solutions offers comprehensive insulation solutions tailored to each project's specific requirements.

Insulation Types Offered

- Batt Insulation — Fiberglass and mineral wool batts for walls, ceilings, and floors.
- Rigid Insulation — High-performance rigid board for thermal bridging control.
- Blow-In Insulation — Loose-fill for attic spaces and hard-to-reach cavities.
- Firestopping Insulation — Code-compliant fire separation in penetrations and assemblies.
- Mineral Wool Insulation — Superior fire resistance and acoustic performance.
- Monoglass Insulation — High-temperature and specialty industrial applications.

Insulation Applications

- Exterior wall cavities and interior partition walls
- Ceiling and attic spaces
- Mechanical room sound barriers
- Party wall assemblies (fire-rated and acoustic)
- New construction and insulation upgrade retrofits
- Vapour barrier installation

5.3 Steel Stud Framing

Our skilled framers deliver precise steel stud installations that meet exacting engineering specifications for both residential and commercial projects.

- Interior partition wall framing
- Ceiling framing and grid systems
- Bulkhead and soffit construction
- Architectural feature framing
- Fire-rated wall assemblies
- Custom metalwork and backing

5.4 Professional Painting Services

Our painting services complement our drywall and finishing work, providing clients with a seamless, single-source interior finishing solution.

- Interior and exterior painting
- Premium paints including Benjamin Moore
- Primer application and surface preparation
- Texture application and specialty finishes
- Touch-up and deficiency work
- Clean, professional practices with protection of adjacent completed surfaces

06

OUR PROCESS & APPROACH

Every project — from a single-unit renovation to a multi-storey commercial fit-out — follows a disciplined five-stage process ensuring on-schedule delivery, quality control at every transition, and clear communication with the general contractor and owner's representative at every milestone.

08

TECHNICAL SPECIALTIES

LEVEL 5 FINISH

Skim-coated, glass-mat finished surfaces suitable for high-sheen paints and critical inspection environments including luxury condominiums and showrooms.

FIRE-RATED SYSTEMS

Certified fire-resistive wall and ceiling assemblies including UL-listed shaft wall, corridor, and demising wall systems per BC Building Code requirements.

ACOUSTIC SYSTEMS

STC-rated partition and ceiling assemblies with resilient channel, acoustic batt, and double-layer board for suites, offices, and mixed-use applications.

09

HEALTH, SAFETY & ENVIRONMENT

Safety is embedded in how our crews operate on every project. One Call Drywall Solutions maintains active compliance with WorkSafeBC regulations and requires all personnel to follow site-specific safety protocols established by the general contractor. Our safety-first culture protects workers, adjacent trades, and building occupants at every stage.

9.1 Safety Commitment

WorkSafeBC Compliance	Full adherence to BC OHS Regulation requirements for cutting, dust control, overhead work, and material handling on all active job sites.
Safety Program	Comprehensive written safety program covering all work activities.
Training	Ongoing safety training and toolbox talks for all workers.
PPE Requirements	Mandatory personal protective equipment on all job sites. Tools regularly inspected for safe operating conditions.
Incident Reporting	Documented incident investigation and reporting procedures.
First Aid	First aid trained personnel on all active sites.

9.2 Safety Practices

- Pre-job safety meetings and hazard assessments
- Site-specific safety orientations for all crew members
- Regular toolbox talks and safety reminders
- Proper scaffolding and fall protection
- Industry-leading dust containment — proper masking, negative air management, and debris removal
- Material handling and ergonomic practices
- Emergency response procedures

9.3 Environmental Responsibility

- Waste minimization and recycling of construction materials
- Proper disposal of construction waste per BC regulations
- Use of low-VOC paints and materials where specified
- Energy-efficient insulation solutions reducing building carbon footprint
- Proactive dust containment protecting occupied and adjacent spaces

10

QUALITY ASSURANCE

Quality is fundamental to our reputation and success. One Call Drywall Solutions maintains rigorous quality standards throughout all phases of work — from blueprint review to final handover.

Quality Control Process

Pre-Construction	Review of drawings, specifications, and project requirements with GC.
Material Procurement	Use of quality materials from reputable suppliers (Benjamin Moore paints, fibreglass tape, premium joint compound).
Installation	Skilled workmanship following industry standards and engineer-specified tolerances.
Inspection	Regular quality checks during installation and at critical finishing transitions.
Completion	Final inspection and deficiency correction prior to handover.
Warranty	Post-completion support and warranty work completed promptly.

Quality Standards

- Adherence to manufacturer specifications for all materials
- Compliance with BC Building Code requirements
- Finishing levels per project specifications (Level 0–5)
- Fire-rated assembly installations per ULC/UL listings
- Acoustic assembly installations per project STC requirements
- Blueprint-ready crews — installers read construction drawings and work to specification
- Clean, professional work practices with active dust containment

Deficiency Management

- Prompt response to deficiency reports
- Documented deficiency tracking and resolution
- Warranty work completed in a timely manner
- Client satisfaction follow-up on all completed projects

11

EQUIPMENT & RESOURCES

Equipment Inventory

Material Handling	Drywall carts, panel lifters, material staging equipment
Installation Tools	Screw guns, routers, automatic tapers, flat boxes
Finishing Equipment	Sanding poles, corner tools, HEPA-filter sanders, HEPA vacuums, tack cloths
Safety Equipment	Scaffolding, ladders, fall protection systems, full PPE inventory
Painting Equipment	Sprayers, rollers, brushes, professional-grade application tools
Transportation	Company vehicles for material and personnel transport across service areas

Workforce Resources

- Experienced project supervisors and site leads
- Skilled drywall installers (boarding, taping, finishing)
- Professional tapers and Level 5 finishers
- Trained steel stud framers
- Experienced interior painters
- Scalable workforce — relocation packages for skilled tradespeople to meet project demand

12

SERVICE AREAS

One Call Drywall Solutions serves a broad range of communities across British Columbia. Our primary operating base is the Lower Mainland, with capacity to serve projects across the province.

LOWER MAINLAND & FRASER VALLEY	ADDITIONAL AREAS

WHY CHOOSE ONE CALL DRYWALL SOLUTIONS

<p>■ Single-Point Accountability</p> <p>Drywall, framing, insulation, ceilings, and painting — all under one contract. No coordination gaps, no finger-pointing between trades.</p>	<p>■ Level 5 Finish Capability</p> <p>Our crews are trained to deliver the highest drywall finish standard — critical for luxury residential, high-gloss environments, and inspectable surfaces.</p>
<p>■ Blueprint-Ready Crews</p> <p>Our installers read construction drawings and work to specification — essential for GCs who need trades that integrate seamlessly with the build process.</p>	<p>■ Proven Dust & Site Management</p> <p>Clients consistently commend our proactive containment protocols — keeping job sites clean, adjacent trades unimpeded, and occupants protected.</p>
<p>■ Competitive Rates, No Compromise</p> <p>Free estimates and transparent pricing that delivers exceptional value — top quality at competitive rates, praised by verified client reviews.</p>	<p>■ Scalable Professional Workforce</p> <p>We maintain an inclusive work environment and offer relocation packages for skilled tradespeople — ensuring we can scale to your project demands.</p>
<p>■ WorkSafeBC Compliant</p> <p>Full compliance with all BC OHS regulations, comprehensive insurance coverage, and a documented safety program on every site.</p>	<p>■ 10+ Years of BC Experience</p> <p>Over a decade delivering residential and commercial interior finishing across the Lower Mainland — proven track record across all project types.</p>

What Our Clients Say

"Very happy with the team from One Call Drywall. Mike and his team were professional and the overall work was very good. The attention to detail — particularly the way they prevented any dust from coming out of the work area — was perfect. Definitely one of the best drywall service companies I have worked with."

— Verified Client Review, [IndustryOversight.ca](#)

"Great customer service and most reliable company for drywall projects. Mike and his team did a great job. Highly recommended."

— Verified Client, [HomeStars](#)
